DEFINITIONS

Hours Worked = Total hours worked including straight and overtime hours **for all field mechanics and apprentices.**

Lost Time Accidents = An accident where an employee lost time from work (excluding the initial day of injury).

Lost Time Accident Rate =
$$\frac{\text{Number Lost Time Accidents} \times 200,000}{\text{Hours Worked}}$$

OSHA Recordable = The total number of all recordable injuries and illnesses recorded on OSHA Form 300

OSHA Recordable (Frequency) Rate =
$$\frac{\text{OSHA Recordable} \times 200,000}{\text{Hours Worked}}$$

* **Note: Hours Worked, Lost Time Accidents, OSHA Recordable Accidents and Accident Rates are for all elevators, not just MRL.**
